

Looking to have your artwork documented?

Artwork Documentation Workshops and Services

The Photography Department is happy to provide our friends working in all art forms across Lillstreet with access to our lighting studio to document your physical artworks and create professional quality digital files for online display and print publication. Sign up for a custom, individualized workshop to learn how to use these tools yourself, OR let us take care of the technical stuff for you -- artwork documentation is also available as a service performed by one of our qualified instructors (number of pieces per session varies by complexity). Workshops/Services are scheduled through our Custom Class Coordinator at customclasses@lillstreet.com.

2hr Custom Workshop or Service

\$150

[If ready to book your session, fill out a custom class request form here!](#)

(just specify under the project section whether you're requesting a workshop or services)
